

Dreams

Manachu/Diane H. Otti

A spiritual communication from Manachu received by Diane H. Otti on March 1st 2011.

"Within our sphere of physical existence, we think that we control the outcome of situations and yet, if we allow "it" to flow naturally, the outcome can be more than you imagined. This is not to be confused with our "dreams", as this often becomes the end result of what we wish or desire. I would wish that each person take a few moments to discover that dreams, our awake ones, show us possibilities or take us away from that which is unfavorable at that moment. To soar and unlock your potential, only need ask, or surrender to our daytime dream of the unknown. Wishes do come true, when you believe; ask a child and you see that dreams and play enhance all the joy they share....for a child knows the true essence of dreams and "make believe"; it extends the time of play, of bliss, of time. Believe in the "unbelievable" and be open to all that comes back to you; for look at all the "myths", the creatures of the earth, even the "wee ones" of folklore - for in believing, wishes come true.

I am reminded, "never to give up your dreams", they help us to open in the physical world with realities that can be harsh and unyielding, Believe in yourselves for you were chosen to be "here". The energies that surround each of you are special indeed - for no one walks "alone". Those that chose to be with you and aid your "earth lessons" have a loving interest that you gain all needed before retiring from this life and transition to the next. Whatever you may believe or not believe is your choice, but many have taken the testament of faith to share the ideals and ideas of the "ages" that once again, we exist in harmony and peace working together to heal our planet; to make known the "unknown". For each IS the beacon of light to further the evolution of "human kind" that is the reason for "being". Take a moment and reflect - knowing that each have purpose and strength beyond compare - the Walk in Life you take is not alone. Blessings to each of you."
