

# WORDS OF WISDOM

## Master Bodie/Diane H. Otti

A spiritual communication from Master Bodie received by Diane H. Otti on March 29<sup>th</sup> 2010.

Words of wisdom – where do they come from? The mind, the heart, the universe, in a book – seen in the sky, all bring a sense of wonder – such is the way. Passing the words from generation to generation, often, we think we are the ones with clever phrases – when in reality, it is from a higher source.

Words uttered have meaning and power – also meek and mild but to place on paper or parchment, brings permanence and importance to the "pearls of thoughts".

Be a good student, study the universe, study man and you too shall find brilliance beyond measure of the sacred written word.

Be safe, stay the course, for more is revealed to those open minds; hence the writings of the ages, nothing less, nothing more.

The written word carrying a message of Hope, Love and Light to those seeking answers.

Many more will follow, this to see....

Be the light, follow in the steps of Great Masters, they too took a first step towards Truth.
