All About Us!

ABOUT US

Infinite Light Spiritualist Church was founded in January 2002 to promote and disseminate the teachings of Spiritualism by utilizing the over 80 years of combined experience from its founding members: Reverends Rosita Genawey, Darrell L. Grant, Philip Klimbal, Dianna Lashley and Suzanne R. Raby.

Founded as a California Nonprofit Religious Corporation Infinite Light is open to all members of the community who accept the precepts of the organization and are interested in the philosophy of Spiritualism and the betterment of themselves and all mankind.

A nonsectarian group, Infinite Light believes in the core teachings of all the great masters who have shared their wisdom with mankind throughout the ages. The organization's 13 Precepts reflect these teachings and are the guidelines for the growth and development of the organization and its members.

1. We affirm that there is an Infinite Intelligence in action through all time. Our definition of God is simply that "God Is".
2. We affirm that there is a continuation of the individual beyond that change called "death".
3. We affirm that Reincarnation is one of the major Spiritual Laws and that it is the mechanism through which life evolves towards perfection.
4. We affirm that there is a general evolution, from simple to complex forms, both in life forms as well as inanimate matter, and that this same law is in effect in the Physical

- Universe as it is in the Spiritual Universe.
5. We affirm that Heaven and Hell are two states of living here and now. That these are not two places "somewhere" but are the result of living in the now; heaven when we are living within the proper framework, and hell when we live not in harmony with Universal Laws.
 6. We affirm that Karma is simple causation. That we as individuals are responsible for our actions in that we give out that which we wish to be returned to us. This is, of course, the "Golden Rule".
 7. We affirm that there is communication with the so-called "departed individuals", under proper conditions, which can be used for the betterment of all mankind.
 8. We affirm that the Universe, both Physical and Spiritual, had no beginning. It has always been and will always be.
 9. We affirm that the Universal Laws have been known by mankind since the earliest dawning of consciousness, and that it is these same laws which the great Masters of the past have tried to bring into man's active lives.
 10. We believe in the Spiritual Law of non-interference. Each of us must travel our path in our own way, at our own pace.
 11. We believe in the Spiritual Law of moderation in all things.
 12. We believe in the Spiritual Law of no distractions and that as one centers on each step along their path, progression will flow freely.
 13. We believe that to Know Thyself is one of the highest goals of mankind and that each of us travels our path to seek that knowledge and understanding which will lead us to Spiritual Enlightenment.
